Appomattox Assembly to meet Thursday

The Appomattox Assembly Council will meet Thursday night, June 3, at 7:00 p.m. in the County's Middle School Annex, across from the stadium.

In the last meeting, Mr. Thomas A. Chilton, a retired government employee was elected president of the assembly.

He was born in Appomattox County. He returned to his home here in Appomattox in 1977.

While working as a government employee he resided in Pennsylvania. He was a supervisor of electronic quality specialist for the Department of Defense for thirty years.

Mr. Chilton is a graduate of St. Paul's College in Lawrenceville, Va.

He received a degree in Electronics, and also in Statiscal Quality Control from Tempel University in Philadelphia, Pa.

Mr. Chilton hopes to obtain interest of the entire county of Appomattox in promoting the growth and influence of the Assembly in this area.

Buckingham High wins ecology award

The Buckingham High School Ecology Club (Buckingham County) and Pound High School PHASE Club (Wise County) were honored today for the most outstanding 1982 Ecology Club Projects. The first place, Division of Litter Control, state awards were presented to student representatives by Keep Virginia Beautiful's former director, Dr. Paul Sanders, during a ceremony held in Richmond. This was the first year two schools tied for first place.

The top award winning projects involved the cleanup of litter in the communities, coordination with local litter control programs, "Adopt a Dumpster" programs, development and production of localized radio public service announcements, a "Road of the Month" contest, law enforcement studies, and more. The groups' activities gained the support of the schools' student governments and students, as well as local businesses and civic organizations.

The second place state award went to the Devils Ecology Club of Independence High School (The Grayson County School System). The Fairfield Middle School Ecology Club of Henrico County was the proud recipient of the third place state award.

In addition, Mr. Robert Jones, of Reynolds Recycling Company, presented a special award to the Churchland High School Science Club (Portsmouth) for its outstanding recycling project, collecting 1459 pounds of aluminum which represents 1.5 lbs. per student enrolled at the school.

Ms. Kathy Erickson, with the Virginia Division of Emergency and Energy Services, awarded Devils Ecology Club with a second honor, the State Ecology Club Energy Conservation Award.

Today's ceremony was the fourth annual Virginia Division of Litter Control Ecology Club Awards presentation. The Division of Litter Control began sponsoring the formation of Ecology Clubs in the State's middle and high schools in the fall of 1978. To date, there are 69 active Junior and Senior Clubs. According to the Division's Education Director, Jan Robertson, the purposes of the clubs are to: 1) foster knowledge of ecology and of environmental problems in Virginia; 2) promote an understanding of the importance of using natural resources wisely; and 3) to improve the community through projects aimed at correcting environmental problems.

USDA requests comments on 1983 wheat program, crop acreage base determinations - Secretary of Agriculture John R. Block today asked the public to comment on provisions of the 1983 wheat programs, details of which must be announced by August 15.

Block also said he wanted comments on what method the U.S. Department of Agriculture should use to determine crop acreage bases not only for wheat but also for feed grains, cotton and rice.

"Whatever methodology we settle on for the wheat program likely will be used for other programs crops," Block said. "For this reason, it is important that we hear from all segments of U. S. agriculture on this subject.

The deadline for comment in June 24.

A crop acreage base is the number of acres of a crop from which a farmer must reduce plantings if an acreage reduction program is in effect. For example, a farmer with a 100-acre wheat base could plant no more than 85 acres of wheat if a 15 percent acreage reduction were in effect.

Farmers who grow several program crops -- such as corn, wheat and cotton-- would have an acreage base established for each crop.

Block said he plans to announce the 1983 wheat program well in advance of the Aug. 15 statutory deadline. He said he will study the public's recommendations and the most current data on U. S. and world crop conditions, production and consumption before he makes final decisions.

Specifically, comments are requested on:

--the loan and purchase prices, the target price and national program acreage.

--wheather USDA should establish an acreage reduction or a set-aside program and, if so, the

percentage of acreage adjustment.

--whether USDA should establish a voluntary acreage reduction and, if so, the level of such a reduction.

--provisions governing allowance of haying, grazing and conservation usage of set-aside acreage.

--a land diversion program and payment for land diversion.

--offsetting compliance requirements for an acreage reduction program.

--methods for determining 1983 crop acreage bases.

Block also asked for comments on provisions for a farmer-owned reserve, commodity eligibility, premium and discounts, the establishment of county loan rates and all other provisions necessry to carry out a loan and purchase program for wheat.

Details of program options under consideration by USDA are scheduled to appear in the May 25 Federal Register.

Comments should be sent to: Director, Analysis Division, USDA-AS C S • Room 3741-S, P. O. Box 2415, Washington, D. C. 20013. Comments will be available for public inspection in that room during regular business hours.

Theatre group to meet

There will be an organizational meeting of the community theatre group on Monday, June 7, at 7:30 p.m. in the Town Office.

Anyone willing to help with the summer play is encouraged to attend this meeting. The play selected for this summer is DAMN YANKEES, a large-cast, musical comedy. Many people will be needed to be in the show, as well as to work behind the scenes. The purpose of this meeting is to discuss the play and to determine the number of interested people. If there is enough interest shown, production plans will continue.

This is your chance to become involved in an enjoyable community project. All age groups are needed, and no experience is necessary.

AMS news

On May 26, Eighth grade students received their scores from the SRA Assessment Series which they had taken in March. Homebase teachers discussed these results with their students and gave them copies to take home to parents. Students and parents are invited to see the counselor, Mrs. Bolling Carter, if they have questions about the tests. Parens may call the guidance office - 352-2135 - for an appointment.

Ask any student and you will quickly be told how many days and hours are left in the school year. We are all looking forward to a nice summer vacation. But the few days left are very full and important days for us at AMS. Students are finishing projects and preparing for exams. This year's exam schedule is as follows:

Tuesday, June 8 - 1st and 6th periods.

Wednesday, June 9 - 3rd and 5th periods.

Thursday, June 10 - 2nd and 4th periods.

Friday, June 11, will be a regular school day with emphasis placed on completing daily assignments and projects.

Saturday, June 12 will also be a regular school day but the day will end at 11:00 a.m. No lunch will be served on Saturday. Students will be receiving their report cards on this final school day.

Annual seventh grade trip

On Thursday, May 20, 1982, 200 AMS students ventured to Washington, D. C. They observed the variety of living things at the National Zoo, and the many exhibits at the Natural History & Aerospace Museums.

Clubs visit Maymont Park

The AMS Science and Spirit Club participated in a joint trip to Richmond's Maymont Park on May 27. Exhibits of animals such as deer, foxes and raccoons were viewed with enjoyment as were the many beautiful gardens.

Phone service to be expanded

Starting June 1, Continental Telephone customers in the Pamplin and Appomatox exchanges will be able to place telephone credit card calls without aid from an operator by using a new service called "Calling Card Service."

Calling Card Service, a new time-saving customer convenience available through pushbutton phones, can be used by both business and residence customers in the 248 and 352 exchanges, according to Spence Kiser, Continental's customer service manager.

The new Calling Card service also will be available to users of public paystations in the Pamplin and Appomattox exchanges.

"With Calling Card Service, customers still will dial zero-plus on long distance calls like they do today," Kiser said. "They will hear a tone and/or an announcement and the calling card number then can be dialed in. Billing will be handled quickly and automatically without any delay in reciting the number to an operator."

Kiser said Calling Card Service can be used with pushbutton phones only. Customers without pushbutton service can continue to place credit card calls, but they still will require assistance from an operator.

The Continental System plans to introduce Calling Card Service in most operating areas nationwide during 1982. By mid-1983, Calling Card Service will be widely available nationwide.

The service was first tested in Milwaukee three years ago by the Bell system. Last year, limited introductions were held in Buffalo, N. Y., and Jacksonville, Florida, primarily for credit card calls from selected public paystations.
